Report on Survey of U.S. Shipbuilding and Repair Facilities

2025

MAJOR U.S. PRIVATE SHIPBUILDING AND REPAIR FACILITIES

May 2025

U.S. PRIVATE SHIPYARDS
MAJOR SHIPBUILDING AND REPAIR BASE (64)

EAST COAST

Active Shipbuilding Yards (4)

General Dynamics, Bath Iron Works
General Dynamics, Electric Boat
Hanwha Philly Shipyard
Huntington Ingalls Industries, Newport News Shipbuilding

Other Shipyards with Building Positions (1)

BAE Systems Jacksonville Ship Repair

Repair Yards with Drydock Facilities (9)

BAE Systems Norfolk Ship Repair, Inc.
Bayonne Drydock and Repair Corp
Boston Ship Repair
Caddell Dry Dock & Repair Company, Inc.
Colonna's Shipyard, Inc.
Detyens Shipyards, Inc.
General Dynamics NASSCO-Norfolk (Ligon Street Yard)
GMD Shipyard Corporation
Lyon Shipyard, Inc.

Topside Repair Yards (10)

ECR / East Coast Repair & Fabrication, LLC (Portsmouth)
Fincantieri Marine Repair / Fincantieri North Florida Shipyard
General Dynamics NASSCO-Norfolk (Harper Ave Yard)
Metal Trades, Inc.
MHI Ship Repair and Services
Promet Marine Services Corporation
Rhoads Industries, Inc
Safe Harbor Newport Shipyard & Marina
The General Ship Repair Corporation
Tradepoint Atlantic

EAST COAST TOTAL = 24 Yards

U.S. PRIVATE SHIPYARDS
MAJOR SHIPBUILDING AND REPAIR BASE (64)

GULF COAST

Active Shipbuilding Yards (3)

Bollinger Mississippi Shipbuilding
Huntington Ingalls Industries, Ingalls Shipbuilding
Seatrium AmFELS, Inc.

Other Shipyards with Building Positions (3)

Austal USA
Eastern Shipbuilding Group, Allanton Road
United Marine Enterprise Inc., Port Arthur Shipyard

Repair Yards with Drydock Facilities (7)

Alabama Shipyard, LLC
Bollinger Mississippi Repair
Gulf Copper - Central Yard
Gulf Copper Dry Dock & Rig Repair
Gulf Marine Repair Corporation
International Ship Repair & Marine Services, Inc.
Tampa Ship, LLC

Topside Repair Yards (6)

Austal USA West Campus Ship Repair
Boland Marine & Mfg. Company, Inc.
Bollinger Lockport, LLC
Buck Kreihs Marine Repair, LLC
Conrad Orange Shipyard, Inc
Gulf Copper Ship Repair

GULF COAST TOTAL = 19 Yards

U.S. PRIVATE SHIPYARDS
MAJOR SHIPBUILDING AND REPAIR BASE (64)

WEST COAST

Active Shipbuilding Yards (1)

General Dynamics – NASSCO

Other Shipyards with Building Positions (2)

Gunderson, Inc.

Vigor Shipyards

Repair Yards with Drydock Facilities (3)

BAE Systems San Diego Ship Repair, Inc.

Lake Union Drydock Company

Mare Island Drydock

Topside Repair Yards (5)

Bay Ship & Yacht Company, Alameda

Dakota Creek Industries, Inc.

Everett Ship Repair, LLC

The San Diego Shipyard

Vigor Marine, Portland

WEST COAST TOTAL = 11 Yards

U.S. PRIVATE SHIPYARDS
MAJOR SHIPBUILDING AND REPAIR BASE (64)

GREAT LAKES

Active Shipbuilding Yards (0)

None

Other Shipyards with Building Positions (5)

Donjon Shipbuilding and Repair, LLC

Fincantieri Bay Shipbuilding

Fincantieri Marinette Marine

Fraser Shipyards, Inc.

Ironhead Marine, Inc.

Repair Yards with Drydock Facilities (0)

None

Topside Repair Yards (2)

H. Hansen Industries

Nicholson Terminal & Dock Company

GREAT LAKES TOTAL = 7 Yards

U.S. PRIVATE SHIPYARDS
MAJOR SHIPBUILDING AND REPAIR BASE (64)

NON-CONUS

Active Shipbuilding Yards (0)

None

Other Shipyards with Building Positions (0)

None

Repair Yards with Drydock Facilities (3)

Pacific Shipyards International

Puerto Rico Port Authority

Vigor Alaska

Topside Repair Yards (0)

None

NON-CONUS TOTAL = 3 Yards

U.S. PRIVATE SHIPYARDS
MEDIUM AND SMALL SIZED SHIPYARDS (268)

EAST COAST

Fabricator/Manufacturer of Maritime Vessels (8)

Blue Atlantic Fabricators LLC
Bridgeport Boatworks
Chesapeake Shipbuilding Corporation
Gladding-Hearn Shipbuilding
J. Goodison Company, Inc.
St. Johns Boat Company
St. Johns Shipbuilding
Yank Marine Services LLC

Builder of small craft/modules up to 250 feet (27)

Atlantic Boat Company
Biblia, Inc.
Blount Boats, Inc.
Boston Whaler, Inc.
Bristol Marine dba Boothbay Harbor Shipyard LLC
Delaware Bay Shipbuilding Company
Derecktor Shipyards New York
Ellicott Dredges, LLC f/k/a Baltimore Dredges, LLC
Evans Boat Repair, Inc.
Glasstech Corp
H & H Marine, Inc.
Hughes Bros., Inc.
J & M Metal Works
Mobro Marine
Mystic Seaport Museum Shipyard / Henry B. duPont Preservation Shipyard
Newcastle Shipyards LLC
Norseman Shipbuilding and Boatyard, LLC
North Carolina State Shipyard
North River Shipyard
St. Augustine Marine Center
Stevens Towing Shipyard

U.S. PRIVATE SHIPYARDS
MEDIUM AND SMALL SIZED SHIPYARDS (268)

EAST COAST

Builder of small craft/modules up to 250 feet (27) - Continued

Tideman Boats US, LLC
U.S. Watercraft
Washburn & Doughty Assoc., Inc.
Willard Marine East (Chesapeake)
Winninghoff Boats, Inc.
Yank Marine, Inc.

Recreational crafts (Builder/Repairer) (11)

Dorchester Shipyard, Inc.
Dyer Boats
East Bay Boat Works, Inc.
Fairhaven Shipyard, North Yard
Hinckley Company
Huckins Yacht Corporation
LBI, Inc.
Martha's Vineyard Shipyard
Otis Enterprises Marine Corporation
Scarano Boat Building, Inc.
Yacht Maintenance Company, Inc.

Barge Building and Repair Companies (3)

SENECO Marine, LLC
Steelways Inc.
TEC Skanska

EAST COAST TOTAL = 49 Yards

U.S. PRIVATE SHIPYARDS

MEDIUM AND SMALL SIZED SHIPYARDS (268)

GULF COAST

Fabricator/Manufacturer of Maritime Vessels (54)

Allied Shipyard, Inc.
Ashton Marine, LLC
Berry Bros. General Contractors, Inc.
Birdon America Alabama Shipyard
Blakeley BoatWorks, Inc
Bludworth Marine (Galveston)
Bollinger Fourchon North
Bollinger Houma
Bollinger Larose, LLC
Bollinger Marine Fabricators, LLC
Bollinger Morgan City, LLC
Bollinger Quick Repair, LLC (Gretna)
Bordelon Marine Shipbuilders
Breux Brothers
Breux's Bay Craft, Inc.
C & C Marine and Repair, L.L.C.
Candies Shipbuilding
Conrad Aluminum
Conrad Deepwater
Conrad Shipyard, L.L.C.
Diversified Marine Services
Diversified Marine Tech, Inc.
Eastern Shipbuilding Group - Port St. Joe
Eastern Shipbuilding Group, Nelson Street
Eymard Marine Construction and Repairs, Inc.
Glendale Boat Works, Inc.
Gulf Coast Marine Fabricators
Gulf Coast Steel Boat Builders Inc.
Gulf Island Shipyards, Jennings
Gulf Island Shipyards, Lake Charles
Gulf Ship
Halimar Shipyard, LLC
Harvey Shipyard Group
Intracoastal City Drydock and Shipbuilding

U.S. PRIVATE SHIPYARDS

MEDIUM AND SMALL SIZED SHIPYARDS (268)

GULF COAST

Fabricator/Manufacturer of Maritime Vessels (54) - Continued

John Bludworth Shipyard, LLC
Kennedy Construction Company, Inc.
Kody Marine, Inc.
LeBeouf Bros. Towing
Louisiana Ship (LaShip)
Metal Shark - Franklin Yard
Mississippi Marine Corporation
New Generation Marine Services and Shipbuilding
North American Shipbuilding Company
Patti Marine Enterprises, Inc.
Rodriguez Shipbuilding Inc
San Jac Marine, LLC Shipbuilding, Houston Yard
Signet Shipbuilding & Repair
Steiner Construction Company Inc.
Steiner Shipbuilding Inc.
Sterling Shipyard
Stewart Construction (Harvey)
Superior Shipyard & Fabricators
Texas Marine Shipyard LLC
Textron Systems Corporation, Marine & Land Systems

Builder of small craft/modules up to 250 feet (45)

Allied Shipyard - Golden Meadow Division
Aluma Marine, LLC
Burton Shipyard, Inc.
Duckworth Steel Boats
FMT Shipyard & Repair
GEO Shipyards
Gravois Aluminum Boats LLC, dba Metal Shark Boats
Gulf County Shipbuilding
Gulf Craft, LLC.

U.S. PRIVATE SHIPYARDS
MEDIUM AND SMALL SIZED SHIPYARDS (268)

GULF COAST

Builder of small craft/modules up to 250 feet (45) - Continued

Gulfbound, LLC
Gulfstream Shipbuilding
Hardrock Marine Service
Harley Shipbuilding Corporation
Hope Services, Inc.
Inland Boat Works
Intracoastal Iron Works
Jemison Marine
JMI Hahnville
Kiewit Offshore Services Ltd
Main Iron Works, LLC
Master Boat Builders, Inc.
Midship Marine
Neuville Boat Works, Inc.
New Orleans Shipyard (ARTCo)
New South Marine Construction
Newton Boats, Inc.
Nichols Boat Company
Pelican Ship Yard & Machine Shop
Port Bolivar Marine Service Inc.
Portier Shipyard, Inc.
Premier Industries (Venice)
Progressive Industrial
Queen Craft Shipyard
Royal Crown Yachts
Safe Haven Shipyard
SEMCO
Sienna Shipyards, LLC
Southwest Shipyard - Galveston
Swiftships Shipbuilders, LLC (Military Yard)
Tampa Yacht Manufacturing

May 2025

U.S. PRIVATE SHIPYARDS
MEDIUM AND SMALL SIZED SHIPYARDS (268)

GULF COAST

Builder of small craft/modules up to 250 feet (45) - Continued

Thoma-Sea Marine Constructors, L.L.C. (Lockport)
Total Marine Services of Jefferson, Inc
United States Marine, Inc.
Verret Shipyard
Williams Fabrication

Recreational crafts (Builder/Repairer) (2)

Corinthian Catamarans, LLC
Silver Ships, Inc.

Barge Building and Repair Companies (21)

Arcosa Marine Products - Madisonville
Beoufway Contractors
Bludworth Marine (Orange Shipyard South)
Bourg Drydock & Service Company
Cooper Consolidated LLC (LaPlace)
Cooper Consolidated LLC (Marrero)
Cooper Consolidated LLC (Upper St. Rose)
Eagle Drydock and Marine Repairs
L.M.S. Shipmanagement, Inc.
LAD Services - Stephenville
MBLH Marine LLC dba Vessel Repair, Inc.
National Maintenance & Repair of Louisiana
Offshore Shipbuilders, Inc.
Omega Shipyard
Palacios Shipyard, Inc.
Plaquemine Point Shipyard
Sisco Marine dba Marine Inland Fabricators
Southwest Shipyard - Brady Island West
Southwest Shipyard - Channelview
T.T. Barge Services

May 2025

U.S. PRIVATE SHIPYARDS
MEDIUM AND SMALL SIZED SHIPYARDS (268)

GULF COAST

Barge Building and Repair Companies (21) - Continued

West Gulf Marine

GULF COAST TOTAL = 122 Yards

U.S. PRIVATE SHIPYARDS
MEDIUM AND SMALL SIZED SHIPYARDS (268)

WEST COAST

Fabricator/Manufacturer of Maritime Vessels (9)

Al Larson Boat Shop
Fred Wahl Marine Construction Inc
ICE FLOE, LLC dba Nichols Brothers Boat Builders
Inventech Marine Solutions LLC
Marine Group Boat Works LLC (Chula Vista)
Northlake Shipyard, Inc.
Platypus Marine, Inc.
Southern Oregon Marine, Inc. (SOMAR)
Svendsen's Bay Marine

Builder of small craft/modules up to 250 feet (31)

ACI Boats
All American Marine, Inc.
Austal USA West Coast Repair
Blackfish Solutions, LLC dba ReconCraft
Brix Marine
Charleston Shipyard
Fashion Blacksmith
Giddings Boat Works
Guardian Marine International, LLC
Hansen Boat Company
Hard Drive Marine
Marine Fluid Systems, Inc.
Mavrik Marine
Modutech Marine, Inc.
Moose Boats
Northriver Boats
Northriver Boats, Inc, Tacoma Plant
Port of Toledo
Reedsport Machine & Fabrication LLC
Rozema Boat Works
SAFE Boats International

U.S. PRIVATE SHIPYARDS
MEDIUM AND SMALL SIZED SHIPYARDS (268)

WEST COAST

Builder of small craft/modules up to 250 feet (31) - Continued

Silverback Marine
Snow and Company Shipyard
South Coast Shipyard
Vigor Fabrication, Clackamas
Vigor, Vancouver
Vigor, Vancouver Aluminum Fabrication
WCT Marine & Construction Inc.
Western Towboat Company
Willard Marine, Inc.
Workskiff, Inc.

Recreational crafts (Builder/Repairer) (4)

Delta Marine Industries, Inc.
Little Hoquiam Shipyard
Port of Astoria Boatyard
Townsend Bay Marine LLC

Barge Building and Repair Companies (2)

Diversified Marine, Inc.
JT Marine Shipyard

WEST COAST TOTAL = 46 Yards

U.S. PRIVATE SHIPYARDS
MEDIUM AND SMALL SIZED SHIPYARDS (268)

GREAT LAKES

Fabricator/Manufacturer of Maritime Vessels (2)

Mackinac Marine Services
Superior Marine, Inc

Builder of small craft/modules up to 250 feet (3)

Fincantieri ACE Marine, LLC
Lake Assault Boats, LLC / Fraser Shipyards
Moran Iron Works, Inc

Recreational crafts (Builder/Repairer) (2)

Burger Boat Company
Smith Boys Marine Sales Inc.

Barge Building and Repair Companies (1)

North Shore Marine Terminal & Logistics Inc.

GREAT LAKES TOTAL = 8 Yards

U.S. PRIVATE SHIPYARDS
MEDIUM AND SMALL SIZED SHIPYARDS (268)

INLAND

Fabricator/Manufacturer of Maritime Vessels (4)

Great Lakes Shipyard
JamesBuilt
National Maintenance & Repair, Inc.
Tell City Boat Works

Builder of small craft/modules up to 250 feet (11)

Bentz Boats, LLC
Calumet River Fleeting / TPG Chicago Dry Dock
Eagle Fabrication, LLC
Ellicott Dredge Technologies
Mark Steel
MetalCraft Marine US Inc.
National Maintenance and Repair of KY, Inc. Missouri Division

26. GRAVING DOCK CHARACTERISTICS SUMMARY

KEY	
MHW	Mean High Water
DF	Depth of Dock from MHW to Floor
DS	Depth of Dock from MHW to Sill
LC	Length of Dock at Coping
LF	Length of Dock at Floor
W	Width of Dock at Top of Entrance
WC	Width of Dock at Coping or Maximum Clear Width above Dock Floor
WF	Width at Dock Floor
WS	Width of Dock at Entrance (Sill)
F	Freeboard. Distance from MHW to Top of Coping. Indicate if Part of Freeboard May be superlooded

NOTE: If no previous construction experience given detailed description of major conversion or industrial manufacturing work considered comparable to ship or boat construction.

Instructions

NOTE TO ALL USERS: This form is used to collect facilities available for the construction or repair of ships information. All in-house Government sources of information are to be searched for applicable data which is then entered on the form by Government personnel prior to presenting the form to facilities. Facilities may then be requested to verify the Government data and to provide any missing or more current data for the form. Facilities are encouraged to provide requested information in the format most efficient to their internal reporting practices and products, including the use of electronic data transfer to the maximum extent available. To minimize the burden on industry, Government representatives are instructed to tailor this standard form by extracting those data elements specifically needed in this solicitation.

Participation by facilities is voluntary. The signatures hereon in no way bind the named firm(s) to the Government in any legal contractual relationship, nor is the Government obligated to contract with the named firm if procurement of the items specified herein is required. It is understood that access to this data will be limited to duly accredited officials of the Department of Defense who are subject to penalties for unlawful disclosure. The protection given to data relating to your facility under the espionage act and other statutes will confine accessibility within the Government to those responsible for the defense of the United States.

- 1. Self-explanatory
- 2. **To:** To be completed by government agency.
- 3. **Shipyard Name and Address:** Street address includes post office box number, if used, as well as, physical street address, city, state or province, and zip code. Nine-digit zip codes are preferred for U.S. entities, and 10-character zip codes for Canadian entities.
- 4. **Year:** Year of data collection. To be filled out by government agency.
- 5. **Coast:** Coastal area that the facility is located on. This consists of East Coast, West Coast, Gulf Coast, Great Lakes or Non-Continental United States (NONCONUS).
- 6. **Parent Company Name and Address:** This is identifying information for the manufacturing site's parent company and/or next higher organizational entity and address. If Government Owned, this block should cite the component's identity and command: i.e., U.S. Navy, Naval Sea Systems Command.
- 7. **Preparer's Signature:** To be signed by facility personnel.
- 8. **Company Name Change:** Indicate if there was a recent company name change.
- 9. **Self-explanatory.**
- 10. **Previous Company Name:** Provide previous organization name.
- 11. **Senior Executive Name:** Provide the name of the most senior executive employed at the facility, Title, Phone Number, Fax Number, and E-mail Address.
- 12. **Dockmaster Point of Contact:** Point of Contact for facility Dockmaster to include Title, Phone Number, Fax Number, and Email Address.
- 13. **Type of Work Performed:** Check appropriate boxes for type of work performed at facility.
- 14. **U.S. Navy Certifications, Agreements and Civilian Certifications:** Check appropriate boxes for the following certifications and agreements; U.S. Navy Nuclear Certification, Agreement for Boat Repair (ABR), Total Ship Test Requirement (TSTR), Master Ship Repair Agreement (MSRA), ISO-9001, and Master Ordnance Repair (MOR).
- 15. **Capabilities to Perform Repairs on Specified Materials:** Check appropriate box for specified material repair capabilities.

- 16-17. **Self-Explanatory**
- 18. **Return Completed/Verified Form to:** To be completed by Government Agency.
- 19. **Please Provide the Number of Hours Used to Complete this Collection of Information:** Provide the number of man-hours used to complete the SF-17 and personnel title.
- 20. **Remarks:** This block may be used by the site point of contact or Government representative to provide clarifying statements or guidance for using the submitted information.
- 21. **Building Ways:** Provide requested information for all facility's building ways. All dimensions are in feet. All depths are in feet at Mean Low Water (MLW). All ship capacity weights are in long tons (2,240 lbs.). Crane lift capacities are in standard tons (2,000 lbs.).
- 22. **Land Level:** Provide requested information for all facility's land levels. All dimensions are in feet. All depths are in feet at Mean Low Water (MLW). All ship capacity weights are in long tons (2,240 lbs.). Crane lift capacities are in standard tons (2,000 Lbs.).
- 23. **Covered Modular Build Facilities:** Provide requested information for all facility's covered modular build positions or facilities. All dimensions are in feet. All ship capacity weights are in long tons (2,240 lbs.). Crane lift capacities are in in standard tons (2,000 lbs.).
- 24. **Ship's Berths (Piers, Wharves, Bulkheads, Mooring Dolphins (MLW)):** Provide requested information for all facility's ship's berths. All dimensions are in feet. All depths are in feet at Mean Low Water (MLW). Crane lift capacities are in standard tons (2,000 lbs.).
- 25. **Drydocks (Marine Railway (MR) Synchrolift (SL) (MLW)):** Provide requested information for all facility's marine railways and synchrolifts. All dimensions are in feet. All depths are in feet at Mean Low Water (MLW). All ship capacity weights are in long tons (2,240 lbs.).
- 26. **Graving Dock Characteristics Summary:** Provide requested information for all facility's graving docks. See illustration for dimensions and key for abbreviations. All dimensions are in feet. All weights are in long tons (2,240 lbs.).
- 27. **Remarks:** This block may be used by the site point of contact or Government representative to provide clarifying statements or guidance for using the submitted information.
- 28. **Floating Drydock Characteristics Summary:** Provide requested information for all facility's floating drydocks. All dimensions are in feet. All weights are in long tons (2,240 lbs.).
- 29. **Remarks:** This block may be used by the site point of contact or Government representative to provide clarifying statements or guidance for using the submitted information.
- 30 - 32. **Current and Pending Contracts New Construction and Repair:** In blocks 30, 31 and 32 provide a list of current vessels being either built or undergoing repair. Commercial contracts in block 30, U.S. Navy contracts in block 31 and U.S. Coast Guard contracts in block 32. Provide hull number as based on facility numbering system. Include U.S. government hull number if applicable. List ship type, i.e. Bulk freighter, container ship, or oil tanker for commercial; Aircraft carrier, guided missile destroyer for U.S. Navy; Cutter, ice breaker or small boat for U.S. Coast Guard, etc. Provide award date, either actual or estimated start construction date and estimated delivery date. Indicate either repair or new construction by checking the appropriate box.

Instructions

33. Principal Shops and Buildings: Provide requested information for all facility's principal shops and buildings. This includes but is not limited to: Great Halls, Mold Lofts, Carpentry Shops, Metal Fabrication, Paint and Blast shops, Welding Shops and Administration buildings. All dimensions for shop or building are in square feet. Largest exit dimensions are in feet. Covered Modules Build Facilities should also be listed in block 23.

34. Shop or Yard Cranes (100 tons or over): Provide the requested information on all facility cranes (bridge type, stationary, rail or mobile) 100 tons or greater. Capacity is in standard tons (2,000 lbs.) and all spans and heights are in feet.

35. Major Items of Machine Tools and Equipment: Briefly list the large items that indicate the capacities of critical shops, as measured by maximum work piece size, e.g., 30' plate bending rolls, 10' plate shears, 400-ton hydraulic press, 30' plate furnace, engine lathe 36" x 20" b.c., etc.

36a - c. Capital Investments: Provide current and planned capital investments for fiscal years (current FY and two years out) requested. List all amounts in millions or 10ths of millions in decimal format. Include any government funded CAPEX if applicable.

37. Storage Space for Components and Materials: Provide the square footage of storage space available at facility for material and components. List dimensions for each area, plus type of material stored.

38. Raw Steel Storage: Provide, in square footage, the amount of storage area for raw steel and/or type of hull material, if other than steel, used in production.

39. Welding and Assembly: Provide, in square footage, the amount of area used for welding and assembly.

40a - c. Acreage Legally Controlled: Provide the area legally controlled by the facility in acres. This includes area in use, area that is developed (including in use) and total acreage (including undeveloped).

41. Existing Local Ordinances Limiting Productive Use: Provide a list of any local ordinances that prohibit or limit productive use of facility, this includes further acreage development or expansion.

42. Limitations Imposed by Property Zoning Classifications: List any zoning classifications that limit either operations or development.

43. Employment: Provide the requested current (survey year) employment numbers in the listed categories and total number of employees. Provide number of shifts for each category of employee. Provide requested data for mobilization, mobilization is defined as: the transformation of industry, including material, labor, capital, and production facilities, from peacetime activity to the industrial programs needed to support national military objectives. For this survey Mobilization is the number of employees that a shipyard can actively employ to meet U.S. mobilization efforts in shipbuilding.

44. Self-Explanatory

45. Distance to the Nearest Railroad Connection: Provide the distance in miles to the closest railroad connection that can potentially be used to receive material and provide support to your facility.

46. Distance to Nearest Airport: Identify and provide the distance to the nearest airport to your facility.

47. Largest Conveyance Available and Maximum Dimensions of Load, for Overland Transportation of Finished Products: Provide largest means of transporting finished products from the facility along with the maximum dimensions of largest possible product to be transported.

48a - f. Navigational Restrictions: Provide the requested information on navigational restrictions for your facility. All dimensions are in feet, at Mean Low Water (M.L.W). Identify, by name all locks and bridges. Provide a list of all projects that will alter navigational restrictions, such as dredging operations or bridge construction.

49. Description of Types of Productive Work Normally Subcontracted: Provide a list of all productive work subcontracted by your facility. This is not to include non-production work, such as facility maintenance or janitorial services.

50. Production Experience: List at least three of the largest and the most complex ships or boats constructed, indicating (1) date completed, (2) hull length, beam, and molded depth, (3) type propulsion unit (fully described), (4) horsepower, (5) electrical and/or electronic installation, (6) special piping features, (7) size and tensile strength of plates, if steel, or type hull material, if other than steel, (8) special annealing, heat treating, or stress relieving problems encountered, if steel, plus, (9) any other important problems resolved, (10) CAD/CAM program used, (11) describe transition/launch process.

APPENDIX B

MAJOR U.S. PRIVATE SHIPBUILDING AND REPAIR FACILITIES

MAJOR U.S. PRIVATE SHIPYARD CLASSIFICATION DEFINITIONS

Active Shipbuilding Yards

The Active Shipbuilding Yards are those privately owned U.S. shipyards/facilities that are open with at least one building position capable of accommodating a vessel 400 feet (122 meters) in length and over, and are currently engaged in the construction of naval ships and/or major oceangoing merchant vessels 400 feet (122 meters) in length and over.

Other Shipyards With Building Positions

Other Shipyards With Building Positions are those privately owned shipyards/facilities that are open with at least one building position capable of accommodating a vessel 400 feet (122 meters) in length and over, and that have not constructed a naval ship or major oceangoing merchant vessel in the past two years. ***The shipyards may not be capable of ship construction without significant capital investments. These shipyards could, however, be used in module ship construction.***

Repair Yards With Drydock Facilities

Repair Yards With Drydock Facilities are those shipyards that have graving docks, floating drydocks, or marine rails capable of handling naval ships and/or major oceangoing merchant vessels 400 feet (122 meters) in length and over. ***These shipyards may also be capable of constructing vessels less than 400 feet (122 meters) in length.***

Topside Repair Yards

Topside Repair Yards are those shipyards that have sufficient berth/pier space, including dolphins, to accommodate a naval ship or major oceangoing merchant vessel ships of 400 feet (122 meters) in length or over. ***These shipyards may also be capable of constructing and/or drydocking vessels less than 400 feet (122 meters) in length.***

GENERAL REQUIREMENTS

The shipyard must own or have in place a long-term lease (1 year or more) on the facility in which they intend to accomplish the work. There must be no dimensional obstructions in the waterway leading to open ocean (i.e., locks, bridges). Water depth in the channel to the facility must be a minimum of 312 feet (**at Mean Low Tide {MLT}**).

NOTE

The following criteria were developed to establish the maximum ship size that could be accommodated in each drydock:

For floating drydocks, the maximum ship length is as given by the shipyards. The maximum beam is determined by allowing a 2 foot clearance at each side between the ship and wing wall.

For graving docks, the maximum ship length is determined by allowing a 2 foot clearance at each end between the ship and the inside of the dock at the floor. The maximum beam was determined by allowing a 2 foot clearance on each side between the ship and each side of the dock entrance at the sill, unless the shipyard indicated more clearance is required.

There are several types of floating drydocks and graving docks and, under certain circumstances, additional clearance would be necessary between the ship and the dock body. Permissible ship sizes requiring additional clearance may be determined by simple calculation from the above criteria.
